

Harry Laack VO

When giant companies such as Chevy, Verizon, and Gillette are looking for that perfect signature sound, they look for a voice that is *compelling, relatable, and confident*. A voice that connects with their audience instantly. And when you work with Harry Laack, that is **exactly** what you'll get.

Acting and creating since he was wee big, Harry Laack finds a natural home in voice over. On the stage in the likes of Jonathan Harker of Dracula, or filmed in front of an ablaze mannequin, he loves it all.
